BORDOX PROFILE

Software & *blockchain.*

Products people use. Contracts that hold the value. Web, SaaS and the on-chain systems behind tokens, markets and rewards.

01 / Software

Websites, SaaS and storefronts.

02 / Contracts

Staking, markets, collections, deposits.

03 / On-chain

Agent tokens and reward systems.

SELECTED WORK

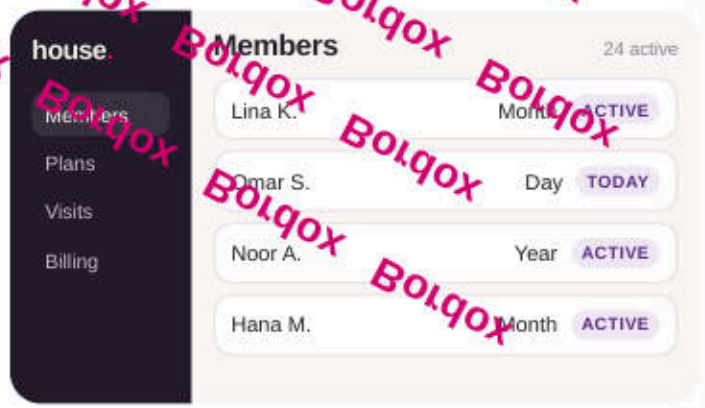

bordox.

01 Event tokens
02 Adhock Cloud
03 Spectral Labs
04 Auradine
05 Duck collection
06 Token swap
07 ERC-20 tokens
08 Staking contracts
09 Spa memberships
10 E-commerce websites

THE PRACTICE

Everything we do.

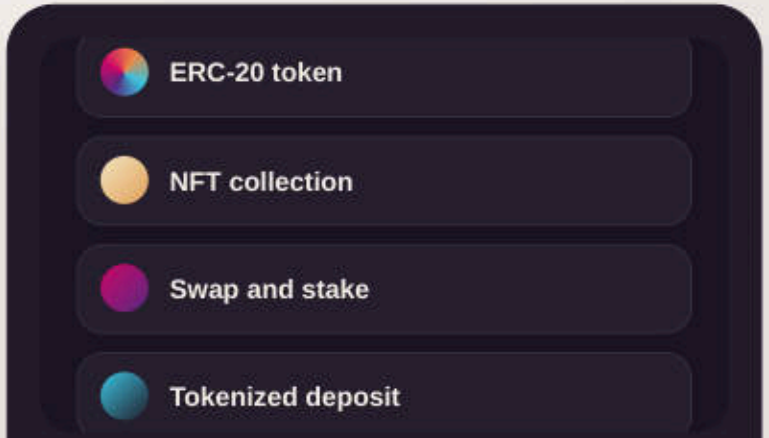

One studio, from the screen people use to the contract that holds the value.

01 / SOFTWARE

Products

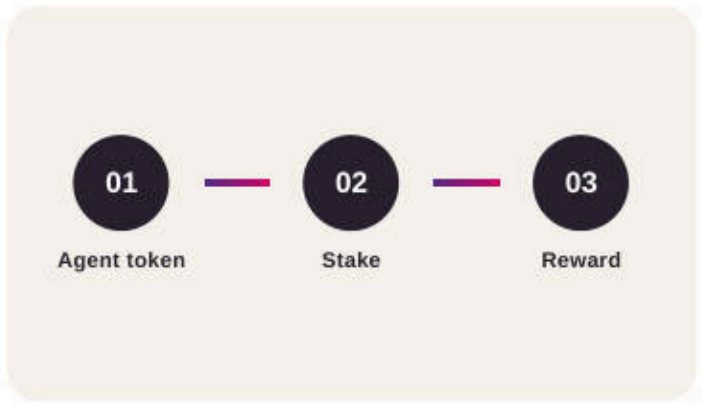

- Websites and storefronts
- SaaS and memberships
- Cloud products

02 / CONTRACTS

On-chain systems

- Tokens, collections and swaps
- Staking and reward distribution
- Deposits for business clients

03 / ON-CHAIN

Live economies

- Agent tokens
- Markets and pools
- Rewards paid to holders

5+ years in Web3 startups

Staff experience in New York and Silicon Valley.

10+ years fullstack

Engineering across the product, from interface to contract.

explore ∞ possibilities.

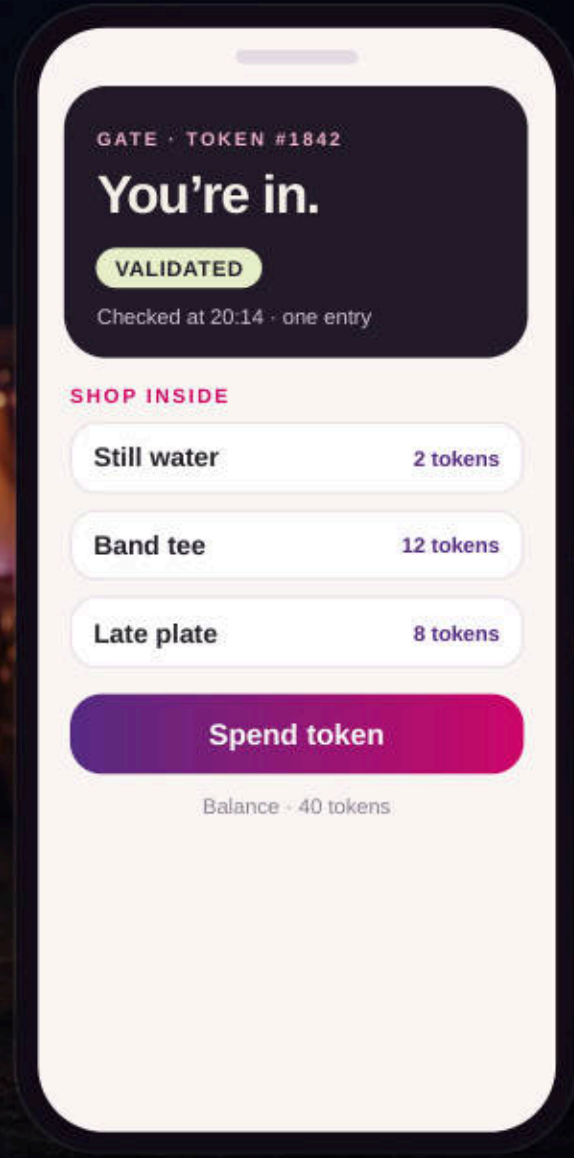

bordox .

01 / EVENTS

Tokens for the night.

Issue » Validate » Shop

An app for the people at the event. Each attendee gets a token, the gate checks it, and the same token spends inside.

explore ∞ possibilities.

bordox.

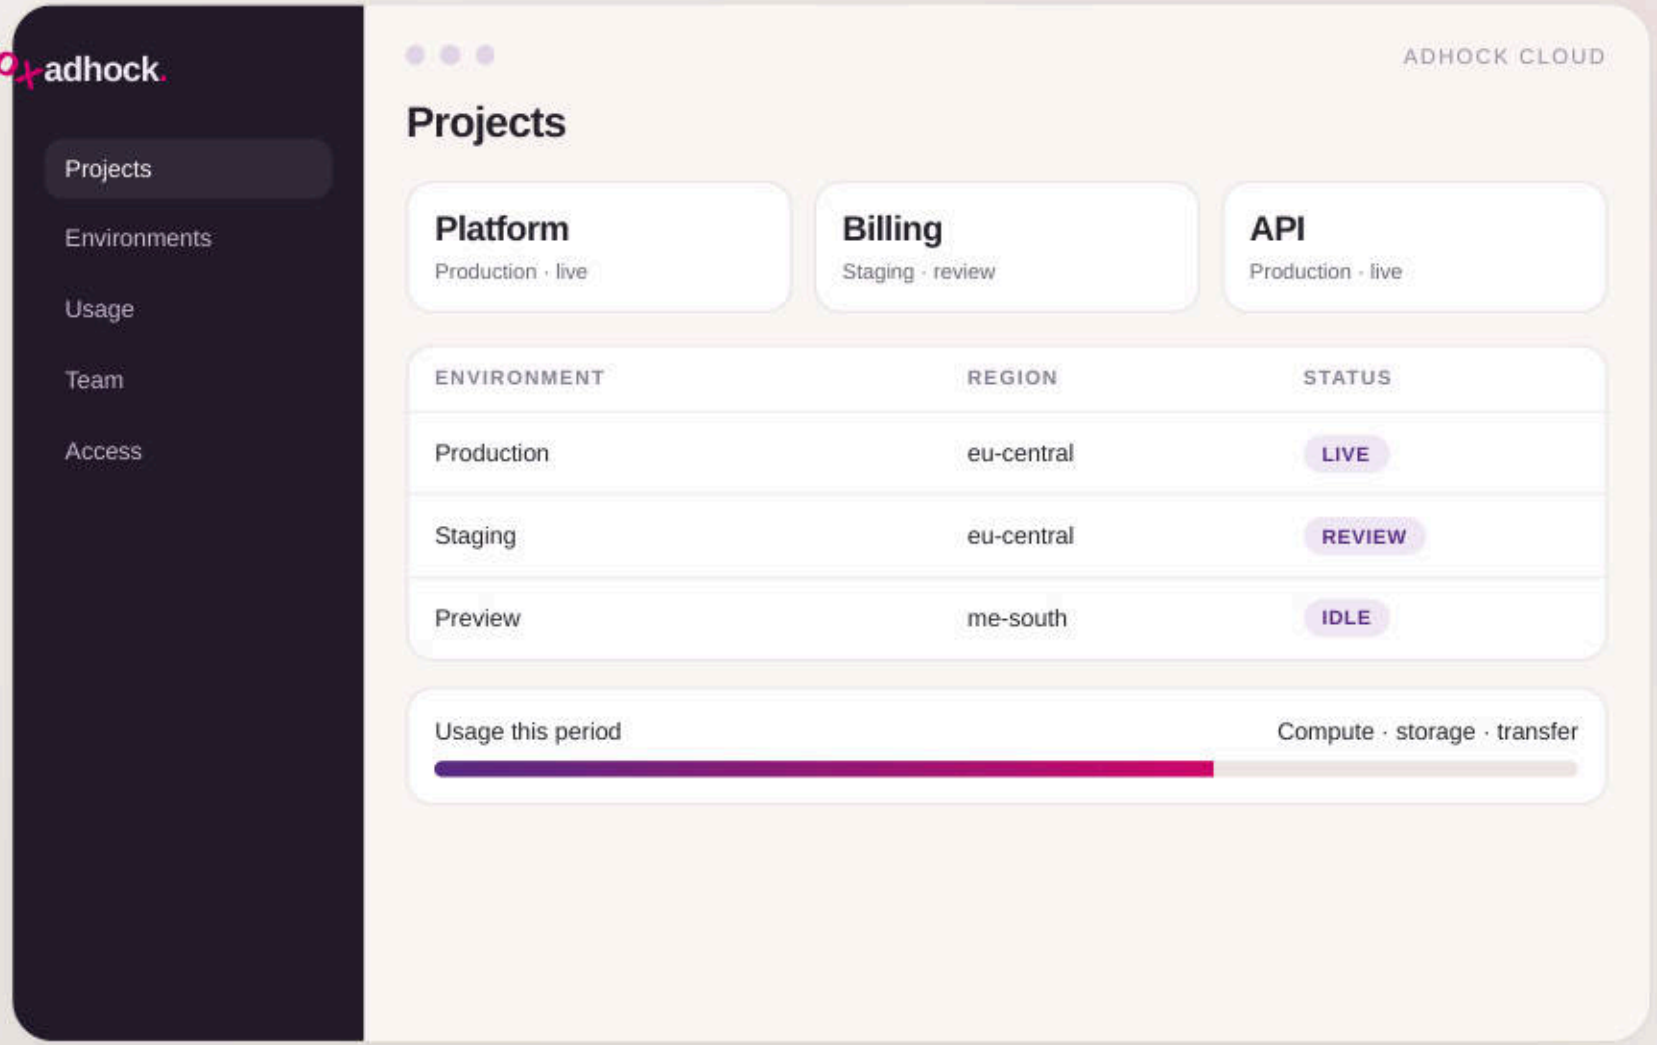

02 SAAS

Adhock Cloud.

Projects » Environments
Usage » Access

A cloud product a team runs every day.
The work, the environments it ships to,
and who can reach them.

adhockcloud.com

AI agent tokens, staking and rewards.

Agent tokens » **Staking** » **Rewards** » **Supporting contracts**

Spectral Labs reached a $200 million market cap. Its AI agent tokens reached $80 million at their peak. Staking and supporting contracts distributed rewards to 4,000 users.

$200M
Market cap reached by Spectral Labs

$80M
AI agent tokens at their peak

4,000
Users paid through staking and supporting contracts

How the rewards moved.

Wallet **Agent token** **Stake** » **Distribution** » **Claim**

A wallet holds the agent token and stakes it. The distribution pays the reward. Positions, emissions and claims sit beside the stake.

ACTOR
Wallet
Holds the agent token and opens a stake.

→

ASSET
Agent token
The token tied to the AI agent.

→

CONTRACT
Staking
Locks the token and records the position.

→

CONTRACT
Rewards
Distributes to the staked positions.

→

OUTCOME
4,000 users
Claim the reward from the distribution.

SUPPORTING CONTRACTS

Positions
Amount and time for each stake.

Emissions
The reward released over time.

Claims
What each user has taken.

BY AURADINE

Tokenized deposits.

Issue Hold » Move » Redeem

Designed for business clients of medium-sized banks. The deposit stays at the bank. The token is the client's record of that deposit.

MEDIUM BANK

Deposit account

Client funds stay on the bank's books.

The account is the source of the token.

Issued only against a deposit.

The token matches what the bank holds.

→

CONTRACT

Tokenized deposit

Issue

Minted when the deposit is taken.

Transfer

Moved between business clients.

Redeem

Returned to the bank, deposit released.

→

BUSINESS CLIENT

Treasury

Holds the token.

A working balance of the deposit.

Moves it to another client.

Then redeems it back to the bank.

bordox .

A token swap.

Pay » **Pool** » **Receive**

A swap against a pool. You pay one token, the reserves set the price, and you receive the other. The fee stays with the liquidity providers.

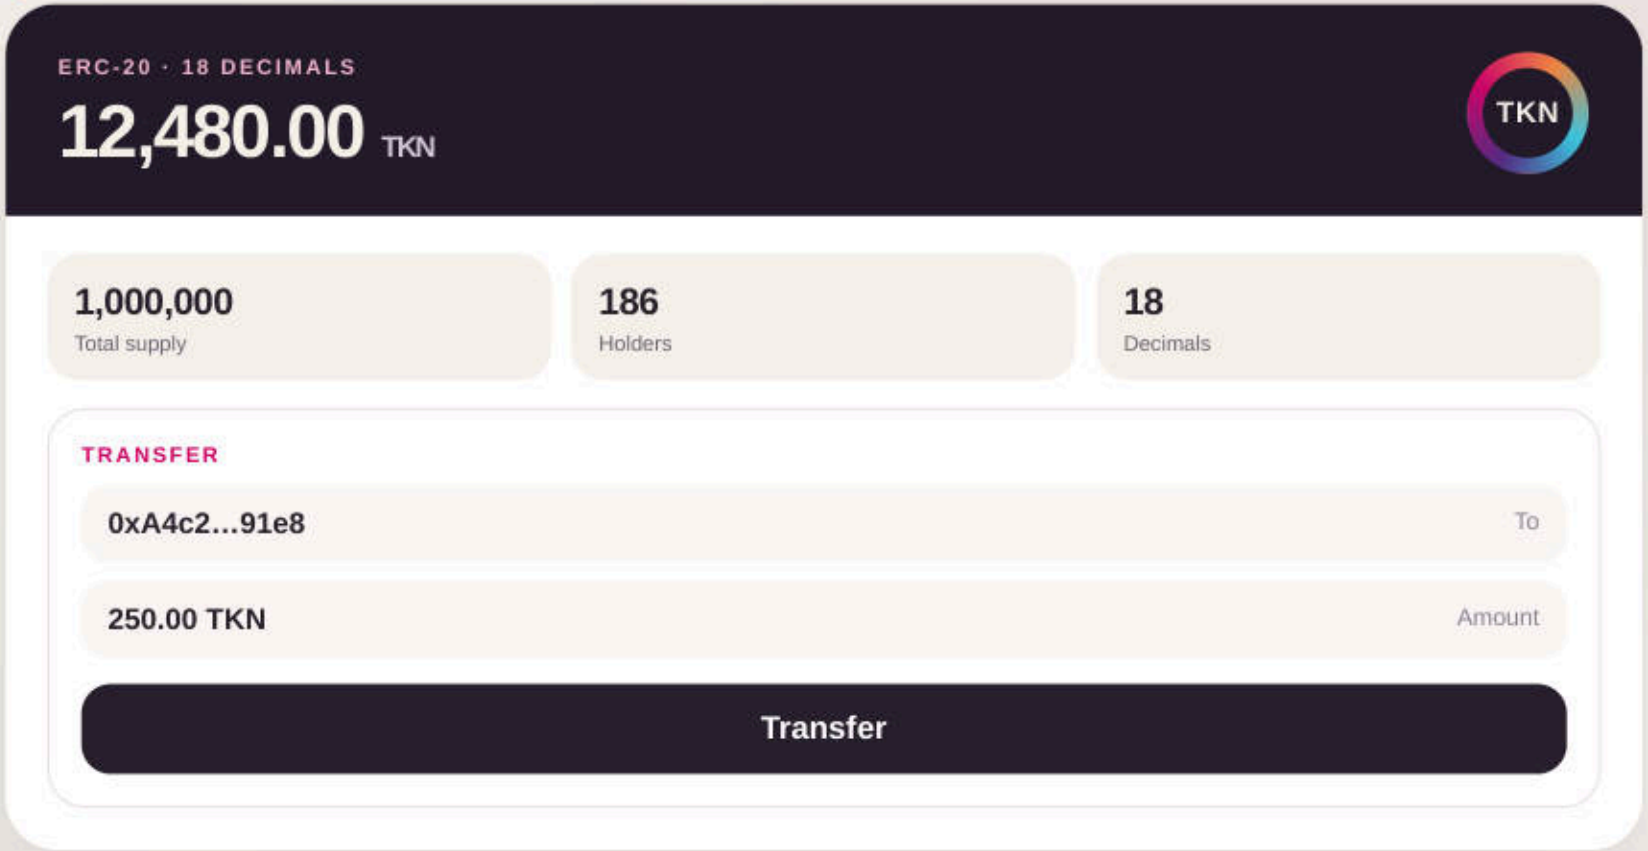

TOKENS

ERC-20 tokens.

Name **Supply** » **Transfer**

A fungible token. A name, a symbol, eighteen decimals, a supply, and a transfer from one wallet to another.

explore ∞ possibilities.

bordox .

Staking contracts.

Stake » **Accrue** » **Claim** » **Withdraw**

Each staker has a position. Rewards accrue on that position, can be claimed, and the principal can be withdrawn.

ACTOR

Staker

Sends tokens into the contract.

→

CONTRACT

Stake

Accepts the tokens and opens the position.

→

STATE

Position

Amount and time. The reward index accrues here.

→

ACTION

Claim

Pays the accrued reward to the staker.

→

ACTION

Withdraw

Returns the staked principal.

09 SAAS

Spa memberships.

Day » Month » Year

A membership product for a spa. A day visit, a month of visits, and a year on the books, with the visits still left inside the member.

VISIT

Day

220 AED

- One treatment
- Book a time
- Arrive and use it

PLAN

Month

780 AED

- Four visits
- Member hours
- Roll unused once

HOUSE

Year

6,400 AED

- Weekday visits
- A guest each month
- Priority booking

Member · Month

3 of 4 visits still open this month

explore ∞ possibilities.

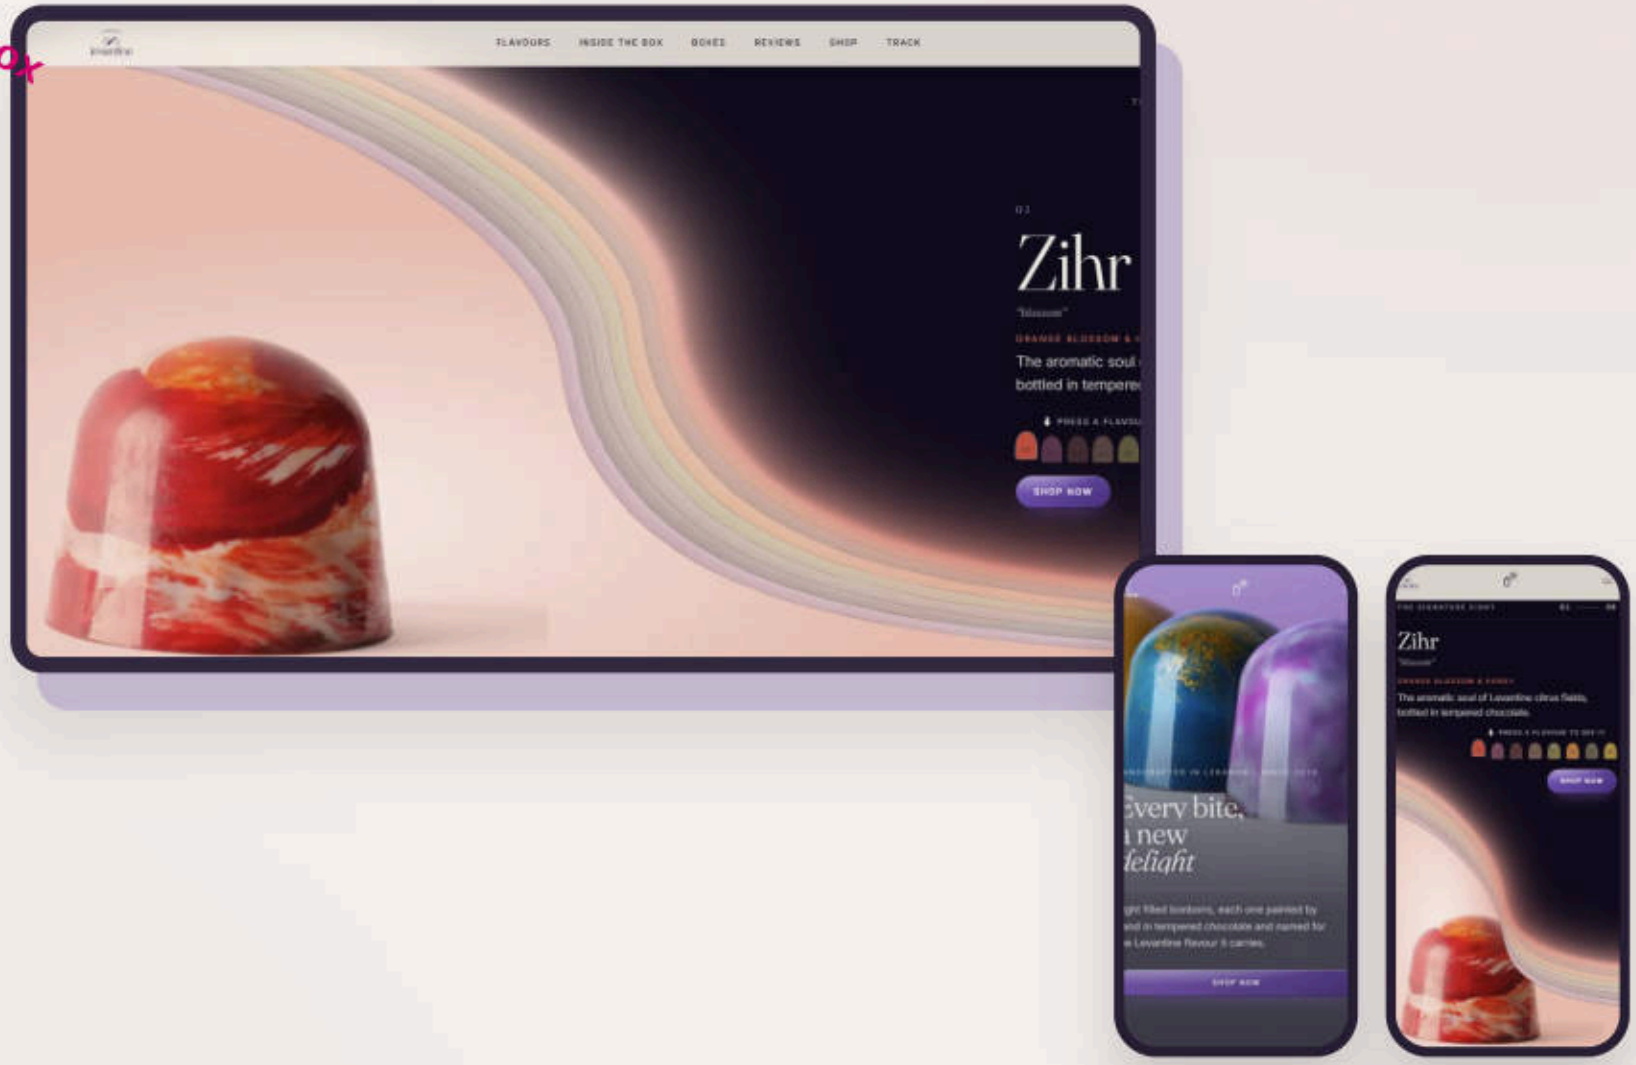

bordox .

10 WEB

E-commerce websites.

Catalogue » **Product** » **Checkout**

A storefront for desktop and phone. The catalogue, the product and the path to the bag, in one design.

explore ∞ possibilities.
